

Board of Examiners of Nursing Home Administrators

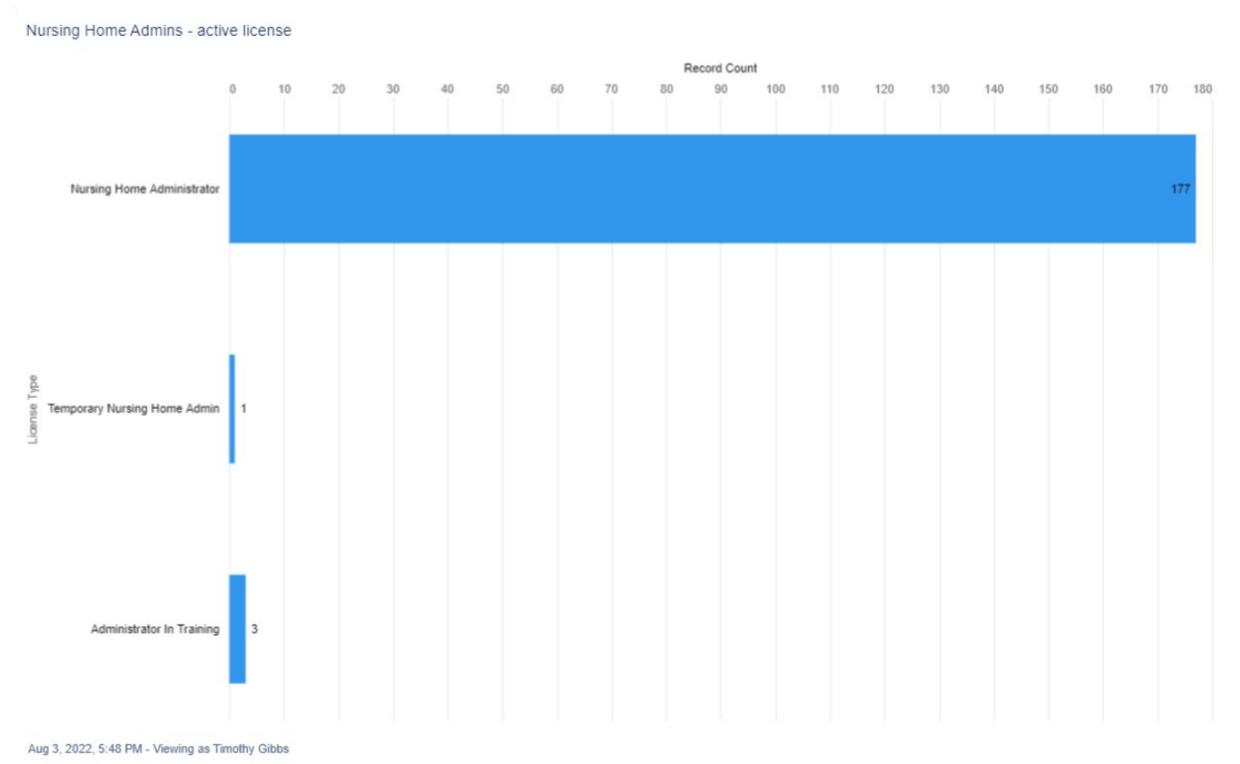

Delaware Health Force Team

The primary objective of the Delaware Board of Examiners of Nursing Home Administrators is to protect the public from unsafe practices and practices which tend to reduce competition or fix prices for services (see figures 1-5). The Board must also maintain standards of professional competence and service delivery. To meet these objectives, the Board

- develops standards for professional competency
- promulgates rules and regulations
- adjudicates complaints against professionals and, when necessary, imposes disciplinary sanctions.

The Board issues nursing home administrator and temporary nursing home administrator licenses. It also approves administrator-in-training programs. The Board's statutory authority is in [24 Del. C., Chapter 52](#).
