Dr Brian McConnell, formerly Geological Survey Ireland
Professor Frank McDermott, University College Dublin
Dr Jean O'Dwyer, University College Cork
Dr Mike Simms, National Museums Northern Ireland
Dr Michael Stock, Trinity College Dublin

THE JOURNAL

The *Irish Journal of Earth Sciences*, which has been published by the Royal Irish Academy since 1984, accepts original research and review articles on Irish Earth science topics and on research performed at Irish institutions or of a general Irish interest. Other papers of general relevance to the Earth sciences may also be acceptable. Discussion of papers published in the journal is also welcome. The Editors are happy to discuss proposed review articles with intending authors before submission.

Papers should be submitted online via Manuscript Manager; visit ijes.manuscriptmanager.net.

For detailed instructions, see inside back cover and visit www.ria.ie/irish-journal-earth-sciences

A NOTE FROM THE PUBLISHER

We want to try to offset the environmental impacts of carbon produced during the production of our books and journals. For the production of our journals this year we will plant 45 trees with Easy Treesie. The Easy Treesie – Crann Project organises children to plant trees. Crann – 'Trees for Ireland' is a membership-based, non-profit, registered charity (CHY13698) uniting people with a love of trees. It was formed in 1986 by Jan Alexander, with the aim of "Releafing Ireland". Its mission is to enhance the environment of Ireland through planting, promoting, protecting and increasing awareness about trees and woodlands.
