Public Advisors charges an annual advisory fee ("Management Fee") that is calculated as a percentage of the market value of your Advisory Account. This fee accrues daily and is deducted from your account on a monthly basis.

For **Direct Index Accounts**, the annual Management Fee is 0.19%.

¹ Regulatory agencies charge us fees for certain trades, which we pass onto you; see the [Regulatory Trading Fees](#) section below. If you are investing in stocks and ETFs as part of an Investing Plan, the fees described in the [Investment Plans](#) section below apply instead.

² Public Premium is a paid subscription service that gives you access to advanced data and insights, enhanced trading features, expanded portfolio management tools, and lower fees on certain trades. The Premium subscription fee waived for accounts over \$50,000; otherwise it is \$10 monthly and \$96 annually.
